## Revolutionary case for professional use

The BUCKLE REPLACEMENT CASE makes possible to keep handcuff on the center line of the waist where it is easy to use them with both hands. This unique case works as a buckle and takes advantage of the "wasted space" taken by a traditional buckle. This case also works much better than the traditional plastic belt buckle! The 4-layer Velcro fastening ensures incredible tensile strength. The belt tension with the case can be adjusted in a couple of seconds without taking the belt off.

This design is protected by international law (Registered Community Design (RCD)).
